

The Association of State Dam Safety Officials (ASDSO) Dam Safety Toolbox website provides a comprehensive summary of dam safety topics and facilitates the sharing of knowledge and tools among dam safety professionals. The website serves as a repository of current guidelines and recommendations related to dam safety. Website content is written collaboratively by volunteers and peer reviewed prior to publication by ASDSO's Dam Design and Construction Committee.

Users can submit proposed edits and new content online using the markup language called "wikitext" which consists of the syntax and keywords used by the MediaWiki software to format a page. Alternatively, content can be submitted for consideration by website editors using this fillable form. The completed form should be submitted via email to the ASDSO Dam Safety Toolbox Editor at toolbox@damsafety.org.
